

WFNS Sunday 3 December workshop in NI labs

Vascular

CEA

History	15min	lecture	D Netuka	8:30
Indication for symptomatic and asymptomatic stenosis, studies	15min	lecture	A Hejcl	9:00
Anatomy, step by step	15min	lecture	M Sames	9:30
CEA How I do it	15min	lecture	D Srinivas	10:00
CEA Tips and tricks, complications	15min	lecture	J Fiedler	10:00
Timing from stroke to CEA, studies	15min	lecture	A Hejcl	10:30
Local anaesthesia vs general anaesthesia	15min	lecture	V Priban	10:30
Antiplatelet and anticoagulation pre CEA	15min	lecture	M Sames	11:00
Sonobiirdie study	15min	lecture	D Netuka	11:00
CEA vs endovascular stenting	15min	lecture	M.Boutarbouch	11:30
Similtaneous CEA and coronary bypass	15min	lecture	V Priban	11:30
CEA after IV and Mechanical thrombolysis	15min	lecture	M Sames	3hrs lectures

Lunch 1h 12:00

12:30

EC-IC bypass

History of bypass surgery for hemodynamic ischemia, Barnett, JET, COSS studies	20min	lecture	M Sames	13:00
Indication for hemadynamic supratentorial ischemia, hemodynamic vertebrobasilar ischemia, algorithm (Veritas Study)	20min	lecture	A Hejcl	13:30
Indication for bypass in acute stroke	20min	lecture	J Fiedler	13:30
Indications for moya moya, tumors, aneurysms	20min	lecture	Bin Xu	14:00
MoyaMoya disease and pregnancy – Current knowledge”	15min	lecture	E Kasper	14:00
Anatomy, STA-MCA bypass. How I do it.	20min	lecture	Bin Xu	14:30
Microsurgical embolectomy. How I do it.	15min	lecture	J. Fiedler	14:30
Anatomy, bypass for nasopharyngeal carcinoma. How I do it.	20min	lecture	Bin Xu	15:00
Bypass technique for aneurysm surgery, side to side bypass	20min	lecture	Bin Xu	15:00
ACE-vertebral artery bypass for VB ischemia	15min	lecture	M.Sames	3hrs lectures

Tea 30min 15:30

Practical demonstartion CEA 60min Practical 16:00

16:30

(Model demonstration end to side, side to side) Bin Xu, M.Sames, J.Fiedler 120min Practical 17:00

17:30

18:00

18:30

19:00

19:30

20:00
